AL DOMANI GENERAL TRADING

COMPANY INTRO

Our company is specialized in agri-business and agri-commodities trade and finance. We stand off to provide high quality products and provide the right financing solutions through our trusted partners in the Middle East, Africa and Europe.

CHAIRMAN'S MESSAGE

As our core business, the supply business will be concentrated on the centralized purchasing solution and specialty trading in agri-business and agri-commodities trade, finance, and petrochemicals is our new products aiming for further growth as well.

We will continue to challenge new value creation and become an "essential company" by fulfilling our role to changing markets based on the philosophy of "All for our customers".

We have a clear vision of what we want to be - leaders in infrastructure development and we guide our business using five core values the lead, grow, deliver, sustain and protect. I'm proud of the work we do and give you my personal commitment that we will deliver what we promise and do it safely and sustainably.

Building on our success, we look forward to a new era of growth as we develop more projects both locally and internationally.

We appreciate your continuous support.

Sincerely,

Ahmed Abdulla Amer Alfalasi
Chairman

Mission

To grow into a sustainable agricultural and food product provider, ensuring supply sufficiency, high quality of farming and production operations, affordability of logistical distribution and protection of the environment and natural resources.

Vision

To serve the industry in & out.

Values

We value the relationship we have with the client and always pull our sleeves to keep the spirit high.

Animal Farms

Solar Energy System Installation

Al Domani Energy creating a sustainable world using the inovative technology to develop clean solar systems.

We are already actively participating in the development of renewable energies, especially solar.

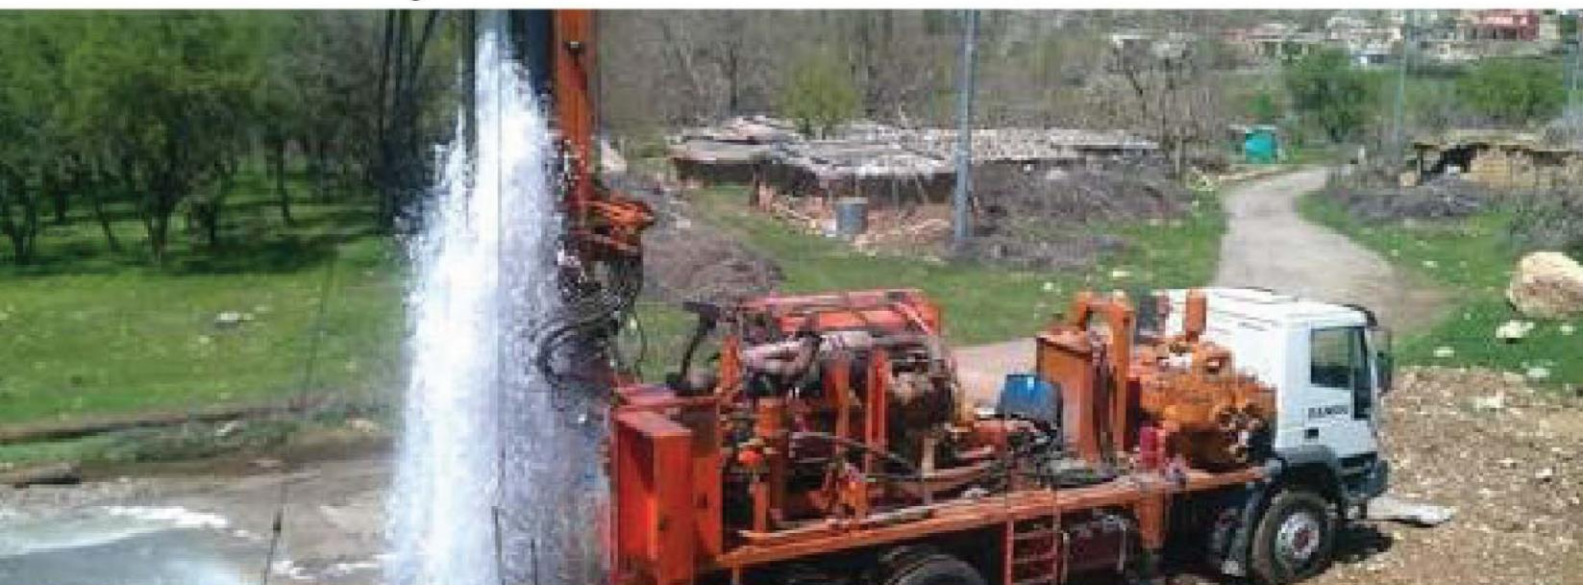

With operations spanning the manufacture of high-efficiency photovoltaic panels,ground based power plants, decentralized systems, storage solutions and marketing to end-customers, we are present across the entire value chain and fast tracking the deployment of solar technology.

Water Well Drilling Service

Water well drilling rigs are designed to be durable, and highly reliable, which are widely used in most difficult environments, our quality water drilling machine could easily cope with varies of boreholes drilling from shallow to deep borehole drilling through tough soil conditions and rocks conditions. For business starter , Al Domani offers training on water bore well drilling machine and borehole drilling skill.

Our branches to support us in Well Drilling

1. Djibouti
2. Sudan
3. Eritrea
4. South Sudan
5. Kenya
6. Rwanda
7. Ethiopia
8. Somalia
9. Uganda

Mechanization Solutions

As a result of the harsh desert conditions Al Domani acquired the rights to Floppy Sprinkler as an irrigation system which is best suited for the challenge. This system uses leading edge technology to preserve water and energy while it is easy to maintain and manage. Floppy sprinkler is an overhead system which cover 97% of the irrigated area, distributing water evenly over any shape and size land. This unique design not only irrigate crops and forage efficiently, but also cool down environmental temperature in summer through automatic, sequential block irrigation. This helps to achieve optimal growing conditions and increase overall yields while utilizing far less water than conventional systems.

Al Domani is the distributors of the Floppy Sprinkler System in the MENA countries. We offer turnkey irrigation solutions to clients, to cater for any condition.

Agricultural Advisor

Al Domani has a team of Agricultural Specialists and analysts to ensure best practices in terms of farming methods and practices are implemented with the utilizing the latest technology. This includes precision farming, drone technology and irrigation automation and measurement techniques. These services are a phone call away for investors or clients.

Logistical Services

Al Domani has a highly qualified and experienced logistics team with a strong distribution network that supports delivery of forages to the UAE Government and local farmers.

The team facilitates the procurement, shipping and distribution of these products, while maintaining strong relations with reliable shipping companies like Maersk, Evergreen, MSC, CMA & UASC. This guarantees service excellence. Overseas logistics teams in USA, Spain & Sudan handle & exports forages to Middle East and Far East Countries.

Al Domani also has its own fleet of trucks and hay handling equipment supported by experienced engineers and operators. The priority of the team is to ensure utmost customer satisfaction by delivering on time and according to the required quality standard.

Input Supply

Due to the fact that Al Domani has to procure large volumes of input supplies for production of various types of crops and forages, we have a team of specialized buyers. These buyers have a network of suppliers across the globe to ensure best price, quality and continuity of supply. Investors can benefit by leveraging off this expertise and economies of scale to achieve lower overall input costs.
